CATALOGUE ENRICHMENT

HYBRID PUBLICATIONS IN LIBRARY CATALOGUES

Experiences within a book project at the
Berlin School of Library and Information Science
Humboldt-Universität zu Berlin, Germany

The goal of the project is to produce a comprehensive, exhaustive volume on a subject relevant to Library Science. Students learn basic aspects of publishing management. They are responsible for developing strategies of the publication process.

HYBRID PUBLICATION MODEL

CATALOGUE ENRICHMENT

SEARCHING

The recognition of providing Open Access Publications is completely contrasting. Although the print versions include the link to free available full text versions, national and international catalogues perceive the hybrid publication model differently.
